**BARBARA FRANCHIN**  
**ITS Founder and Director**  
[www.itsweb.org](http://www.itsweb.org)

Barbara Franchin is the founder and soul of **ITS – International Talent Support**.

She was born and raised in Trieste, a privileged point of view due to its peripheral and eccentric position: unlike the established capitals of design, it allows an ideal perspective for a pure and unfiltered view, free from conservative visions of the world.

In 2001 she launches EVE, a one-of-a-kind agency with a key strength: an eclectic, dedicated and passionate team.

The following year she launches the first edition of ITS, a creative platform based on a deep and widespread **research of talent** offering support, visibility and opportunities for **young designers coming from all over the world**.

Selected through a long and rigorous process, they are then hosted in Trieste for a **grand final event which sees the presence of over 400 guests: journalists, trendsetters, opinion leaders and major representatives of the fashion system**.

Her love and will to preserve, catalogue and bring completion to this research journey led to the creation of the ITS Creative Archive, a unique collection which traces the history of contemporary fashion evolution, endlessly and fluidly evolving.

**The ITS Creative Archive holds 15,000 projects from over 80 countries, 200 outfits, 110 accessory and 70 jewelry pieces and over 700 digital photography projects.**
